

## **Plagiarism quiz**

Which of these is correctly cited and which is plagiarism?

### **Original source**

If the existence of a signing ape was unsettling for linguists, it was also startling news for animal behaviorists (Davis, 2000, p. 26).

### **Version A**

The existence of a signing ape unsettled linguists and startled animal behaviorists (Davis, 2000, p. 26).

### **Version B**

If the presence of a sign-language-using chimp was disturbing for scientists studying language, it was also surprising to scientists studying animal behavior (Davis, 2000, p. 26).

### **Version C**

If the discovery of an ape who could use sign language was provocative news to linguists, it also provoked a controversy among animal behaviorists (Davis, 2000, p. 26).

### **Version D**

According to Flora Davis, linguists and animal behaviorists were unprepared for the news that a chimp could communicate with its trainers through sign language (Davis, 2000, p. 26).
